

A new way to stay on top of industry news and innovation

What are Cannabis NewsHub and Cannabis NewsBank: Research Edition?

Powerful resources for professionals seeking information related to the cannabis industry including marijuana and hemp.

Why do I need it?

This industry moves fast. News about the developments and innovations in the industry move faster. Access to this information is a competitive advantage – the right information drives better decision-making and fuels innovation. *Cannabis NewsHub* and *Cannabis NewsBank: Research Edition* are information management tools that deliver:

- Comprehensive, aggregated coverage – from hyper-local to broad global sources
- Leading edge information – today’s news today
- Real News – only licensed, vetted sources
- Mitigation of risk – never miss the information that drives opportunity

Together, these resources deliver the current and retrospective information you need to stay on top of trends and research the issues, events, and people driving change and innovation across the industry.

- Highly relevant news and information delivered daily
- Updated continuously so users can stay on top of the news
- Follow curated topics or create your own

- Research database with advanced search capabilities
- Decades of historical perspective
- Understand trends and opinions from across the industry

“Cannabis NewsHub is a critical component of an overall knowledge management system, and is a welcome resource in the Cannabis Space.”

Christopher J. Davis, Esq.
Executive Director
International Cannabis Bar Association
